MEDICAL.

DR. ARNOLD'S UNION PILLS. Dr. Arsoldo-Dr. Sin-I consider it but an act of justice to yourself and the community, to state to you the very great benefit I have received from the use of your Union Pills. Having been for quita a number of years, greatly troubled with dispensia, and constipution of the bowels; at times alarming me greatly. I used every other remedy, almost that I ever read or head of for the discuse, all without the least beneficial effect. I had almost come to the belief, that it was useless to try any more; as I labored under great debility, and my stomach was greatly injured by taking the different Pills, medicine, &c.; but on hearing my neighbors speak so frequently of the beneficial effects of your timen I fills, I concluded to give them a trial, and bought a fifty cents viol, and commenced their use. From the first dose of one Pill I was satisfied it was the medicine for me. I have not yet used quite one vial, and can now say to you with the utmost pleasure, that I have not for the last ten years felt as well, or enjoyed such good health, as I have since commencing the use of your Pills. I would take no sum for the good these Pills have done me, and almost every branch of my family have used them with the same happy effect. At times some of the negroes have had symptoms of fever—at the first complaint I have given them one or two Pills, and never had to repeat the dose but once, which effected a cure. Year other recitiones used by my family, heve had the most happy effect. I shall always keep a supply of your Pills on hand, and I think that no one, inhoring as I have under great debility and dyspepsia, v th all their evil consequences, but what wately, after a use of your medicine, join me in saying the same of them.

MEDICAL.

Entered according to Act of Congress, in the year 1851, I J. S. HOUGHTON, M. D., in the Clerk's Office of the A istrict Court for the Eastern District of Pennsylvan REAT CURE FOR DYSPERSIA :- ANOTHER SO DR. J. S. HOUGHTON'S

THE TRUE DIGESTIVE FLUID, OR GASTRIC JUICE, PREPARED from Rennet, or the Fourth Stonisch if the Ox, after the directions of Baron Liebig, the great Phy-siological Chemiat, by J. S. Boughton, M. D., Philadelphia,

Penn.

This is a truly conderful remedy for ladigestion. Descepsiz, Jamidice, Liver Complaint, Consumption and Deblity,
curing after Nature's own method, by Nature's own Agent,
the Gastric Juice.

Half a ten-speciated of Pepsin, inferest in water, will eigest
or disserve five pointies of reast beef in about two hours, out
of the stemach. or disserve five posmins of roast beef in about two hours, out of the standarh.

Pepsin is the chief element or digesting principle of the Gastric Jaice—the solvent of the frod, the purifying preserving and stimulating agent of the stourach and intestines. It is extracted from the digestive stourach of the Ox, thus forming an artificial digestive diad precisely like the natural Gastric-Juice in its chemical powers, and firmishing a complete and perfect substitute for it. By the aid of this preparation, the pains and crils of indigestion and Dyspepsin are removed just as they would be by a healthy stourach. It is doing wonders for dyspeptics, during cases of Debdity, Emaciation, Nervous Decline and I-capeptic Consumption, supposed to be on the verge of the grave. The scientific evidence upon which it is based is in the highest degree curious and remarkable.

Scientific Evidence. Baron Liebig, in his celebrated work on Animal Chemistry, says: "An Artificial Digestive Fluid, amalogous to the Gastrie Judee, may be prepared from the nutcous membrane of the stomach of the Ox, in which various articles of food, as meat and eggs, will be softened, changed and digested, just in the same manner as they would

be in the sumon stomach.

Dr. Preira, in his famous treatise on "Food and Diet," published by Fowler & Wells, New York, p.ge 25, states

Dr. Preira, in his famous trentise on "Food and Diet," published by Fowler & Wells, New York, page 25, states the same great fact, and describes the method of preparation. There are few higher authorities than Dr. Priera.

Dr. Combe, in his valuable writings on the "Paysiology of Digestian," observes that "a dimmition of the due quantity of the Castric Jucce is a prominent and all-prevailing cause of Prespecies." and he states that "a distinguished professor of medicine in London, who was severely afflicted with this complaint, finding every thing else to fall, had recourse to the Gastric Jucce, obtained from the stormachs of fiving asimals, which proved completely successful."

Dr. Graham, author of the famous works on "Vepetable Diet," says: "It is a remarkable act in Physiology that the stormachs of animals, macerated in water, impart to the fluid the property of dissolving various articles of bood, and of effecting a kind of artifleial digestion of them in no wise different from the natural digestive process.

Dr. Simon's great work, the "Chemistry of Man," Lee & Blanchard, Edindelphia, 1846, pp. 621-2, says: "The discovery of Person forms a new era in the chemical history of digestice. From recent experiments we know that food is dissolved as trapidly in an artificial digestive fluid, prepared from Person, as its in the natural Gastric Juice itself.

Professor Danglison, of the Jeffarson College, Philadelphia, in his great work or Homan Physiology, devotes more than lifty pages to an examination of this subject. His experiments with Dr. Beaumont, on the Gastric Juice itself.

Dr. John W. Draper, Professor of Chemistry in the College of the University of New York, in his "Text Rook of Chemistry" page 350, says: "It has been a question whether artificial digestion could be performed—but it is now universally admitted that it may be."

Dr. Lorpenter's standard work on Physiology, which is in the library of every physician, and is used as a text-levek in all the colleges, is full of evidence similar to the abo

as a remeny or discussion of the same of the distriction of the Gastric-Juice.

All modern works on Chemistry, Materia Medica and Physiology, and all good Medical Dictionaries, describe the character and properties of Pepsia, and state many interesting

details respecting it.

The fact that an Artificial Digestive Fluid, or Gastrie Juice, perfectly resembling the natural fluid, may be readily pre-perfectly resembling the natural fluid, may be readily pre-parted, these not admit of question. The only wonder is, that it has not before been applied to the cure of indigestion and Dyspepsia—so maturally does such a use suggestfaself to the mind.

As a Dyspepsia Curer, Dr. Houghton's Pensin has produced the most marvellous effects, in cases of behinfy, Emacation, Nervous Decline, and Dyspeptic Consumption. It is impossible to give the details of cases in the limits of this advertisement; but authenticated certificates have been given of more than two hundred retunkable euros, in Philmichina, New York and Boston alove. These v desperate cases, and the cures were not only rapid and won-derful, but perument.

derini, but peruminent.

It is a great nervous antidate, and particularly useful for tendence to Bilious Dissavier, Liver Complaint, Fever and Ague, or budly treated Fever and Ague, and the evil effects of Quaine and M-reary and other drugs upon the digestive organs, after a long sickness. Also, for excess in eating, and the too free use of ardeut spirits. It almost reconciles health

the Stormeh, Distress after Enting, Lew, Cold State of the Blood, Heaviness, Lowness of Spirits, Despondency, Emaciation, Weakhees, Tendency to Insunity, Suicide, &c.

Dr. Houghton's Pepsin is sold by mark all the dealers in fine drugs and popular medicines throughout the United States. It is prepared in powder and in fluid form, and in prescription vials for the use of physicians.
